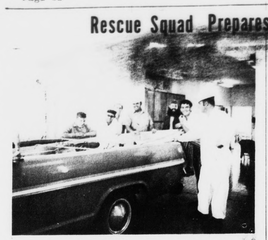
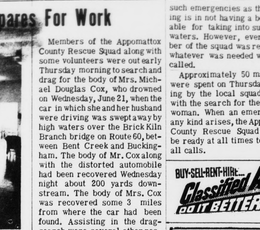
Rescue Squad Prepares For Work



Members of the Appomattox County Rescue Squad loaded their small boat and prepare to leave for Buckingham for dragging and searching operations. Squad members pictured above are Jimmy Rogers, Toby Inge, Ray Noble, Perry Davis and Kelly O'Brien. Volunteers are Larry Ferguson and Tom Noble. Other squad members had already gone to the scene in the SEMA ambulance.

Members of the Appomattox County Rescue Squad were busy Monday and Tuesday of this week assisting in such emergencies as the flooding in is not having a boat suitable for taking into such swift waters. However, every member of the squad was ready to do whatever was needed whenever called.

Approximately 50 man hours were spent on Thursday morning by the local squad helping with the search for the drowned woman. When an emergency of any kind arises, the Appomattox County Rescue Squad tries to be ready at all times to answer all calls.



ON ROUTE 666 ROLAND SMITH is shown knee-deep in mud in his corn field that is a total loss. He is only one of the many farmers in our county to lose entire crops.

A Safe Holiday

The Fourth of July weekend will bring fun, fireworks ... and more than 500 highway fatalities.

Statistics coldly, but clearly tell the recurring tale of highway tragedy. Last year, 635 died in highway accidents during the July 4th weekend. The National Safeth Council reports that an additional 215 people have died since who were involved in auto accidents last July 4th weekend.

The smart driver is the one who will concentrate on the estimated 20 driving decisions which must be made each mile. To help the smart driver, Liberty Mutual Insurance Company suggests five basic tenets of a Decision Driving porgram which the firm has taught throughout the country.

Expanding your lookahead capacity simply means to watch for potentially dangerous situations developing ahead on the road. A problem developing hundreds of yards ahead could be a full-grown hazard for you in just a few seconds. The time gained by early recognition of potential problems could add a lot of time to your life.

In sizing up the whole scene, a driver evaluates his total environment, as it is constantly changing. Changes in weather, visibility, traffic patterns, road conditions and such demand immediate and accurate response, especially when driving at high speeds. If a driver is traveling along at 60 miles per hour and a light rain starts or he sees traffic congested a quarter of a mile ahead, his preparation for the situation developing will help him avoid the need to make a split second decision.

The decision driver will always leave an "escape route" or way out of trouble if the unexpected develops. One way to leave a margin of safety is to allow proper following distance, which means at least one car length for each ten miles per hour of travelling speed. Another way to keep yourself out of trouble is not to get "boxed in" on both the adjoining traffic lanes.

Finally, the driver must be ready to take decisive action. If the driver has kept in mind the above four principles, his decision-making sould be easy. If the driver thinks about what he is doing and concentrates on his driving environment, he will have the needed knowledge to make decisions which will safely get him where he is going.

Missionary To Speak This Sunday Night

Bro. Jack Windisch, Missionary to Isreal, will be speaking at the Bible Baptist Church this coming Sunday evening at 7:30. Bro. Windisch was saved in 1965 and called into the Gospel Ministry in 1966 and approved by the Greenwood Baptist Church as a Missionary to Isreal in1971. His training consists of a Bachelor of Science Degree from the University of Maryland in 1962. He served his country as a Marine Captian from 1962 to 1966 and completed three years of Bible College with a pending Master of Theology Degree from the Texas College of Theology to complete his Theological Training. These three accomplishments have rounded out the intellectual, volitional and emotional character of this Missionary. Bro. Windisch joined the Greenwood Baptist Church in Houston, Texas, upon entering the Texas College of Theology. He served faithfully there and gave generously and prayed for the uplifting of the cause of Jesus Christ in the local church.

Bro. Windisch will be speaking this coming Sunday evening and will be showing slides that he has taken during his tour of duty as a serviceman around the world. Bro. Windisch has some excellent slides that will be most interesting to those that are concerned about missions around the world.

The Bible Baptist Church takes great pleasure in having this Missionary in our area and we would like to invite all of our friends to be with us and behold this great presentation of the Gospel in Missions.
